## PROJECTS

[Podcast platform ↗](#)  
Apr 2024 - May 2024  
Developed a dynamic podcast platform with React and Firebase, podcast management, and browsing functionalities. Integrated Redux for efficient state management, ensuring scalability and profile management, and podcast creation. Utilized Firebase Firestore for secure, real-time data storage, enhancing platform reliability and responsiveness

[Finance tracker website ↗](#)  
Mar 2024  
Modern finance tracker application incorporating user authentication, data storage, and real-time updates using React and Firebase. Designed and integrated dashboard components for balance visualization, income, expenses, and transaction management with advanced filtering and sorting features. Ensured data security and persistence through Firebase Firestore.
